Upgrading PSD Messenger Pro from version 5 or 6 to 7

1. Stop PSD Messenger Pro by clicking the Finish Flag toolbar button.
2. Select Database\Backup to backup the database.
3. Stop the PSDMessenger service.
4. Copy the backup file to the new PC.
5. Install the new version on the new PC.
6. Copy c:\program files\PSDMessengerPro\PSDMessengerPro.ini file to the same folder on the new PC.
7. Run the new version.
8. Click the Finish Flag toolbar button to stop PSD Messenger Pro.
9. Select Database\Restore to restore the database.
10. Select File\Install as NT Service.
11. Contact PSD for an unlock code.
12. Close PSD Messenger Pro.
13. Start the PSDMessenger service.
